This student believes that bedroom furniture should be smart, even on a tight budget. When their bed can become two beds, or a bigger bed, or even a sofa, that's good value. Add a desk that can appear when needed and disappear the rest of the time, and that's even better.

Bedroom

A good night’s rest isn’t just about a bed – it relies on a room that makes you feel relaxed. So, make your sleep space work for you with furniture, textiles and smart storage that’ll keep your bedroom cozy and clutter-free.

① JOFRID

Color me conscious

JOFRID throw proves that working with nature, not against it, is beautiful. It gets its deep, earthy color using only organic materials from agriculture, such as the leaves left after harvesting, that would otherwise go to the landfill. And just like your favorite jeans, its blend of linen and cotton from more sustainable sources will only get lovelier with time.

Simplicity is always in style with MALM

There's more to the MALM bedroom series than meets the eye. A bed with built-in storage? Check. A chest of drawers that can double as a bedside table? Ditto. Sleek and simple, with loads of clever ideas for compact living, this collection gets a double thumbs up for both form and function.

...but you don't have to

It's easy to construct our bedroom furniture, but we'll happily do it for you if you'd rather skip straight to the "too cozy to move" part. Turn to page 278 or or go online to [IKEA-USA.com/services](https://www.ikea-usa.com/services) to see how we can help deliver, assemble or finance your next purchase.

Kiss the stuff chair goodbye

Those clothes not quite ready for the wash. That shirt you thought you'd wear, but didn't. The can't-be-bothered bath towel. Freeing up the world's burdened bedroom chairs won't be easy. With a bit of extra backup, though, your home can be the change!

Rack it
This compact rack is impressively capable, holding up to 20 shirts and even a few pairs of shoes.

Hide it
If you're all about that "out of sight, out of mind" philosophy, you'll love this mirror with hidden hanging space behind.

Hook it
Easy to grab, easy to go. Hooks help make the most of your wall space and equally great to look at. Win win.

Your kind of comfort

When it comes to a good night’s rest, one size definitely doesn’t fit all. And neither does one kind of pillow. Designed for every kind of sleeper – front, side, and back – our range of ergonomic pillows offer soothing support (in all the right places) for unbeatable bedtime bliss.

If you want ultra-comfort in a classic shape, RUMSMALVA is for you. Adjustable memory foam gives all the support you want, with the look of a regular pillow.

Two different heights with double-layered memory foam make ROSENKÄRM seriously comfy.

Suited to all sleeping styles, SKOGLÖK is soft comfort with a supportive punch – and also great for those with allergies.

Contoured memory foam in KLUBBSPORRE molds to your shape, with cooling gel on one side for summer nights or warm sleepers.

The unusual shape of MJÖLKKLOCKA supports side and back sleepers, with advanced new memory foam that’s non-sensitive to temperature.

A little goes a long way

What if you could turn something round into a hexagon, dramatically reducing waste as well as its price? And make it from recycled PET? Changed its color from white to gray to better hide dirt? Put these great ideas together and you get our updated FIXA stick-on floor protectors, making a smart little thing a little bit smarter.

The subtly sustainable kitchen

We're always looking for new ways to make our products more sustainable – even if it isn't always visible at first glance. By experimenting with new materials and adding extra features that save water and energy, we've made it easy to do good for the planet from the comfort of your kitchen.

All our faucets come with water saving features, which is good for the planet (and means less money down the drain).

Recycled wood. Recycled PET bottles. This cabinet front's materials aren't quite new, but it's still the perfect fit for any modern kitchen.

Easy ways to upgrade your kitchen

It doesn't have to be difficult to maximize your kitchen's potential by adding pieces that increase your work area, provide extra light or storage. With a few quick and basic updates, it's easy to create an inviting (and efficient) space for meal prep and more.

These lights can be mounted on a wall or stand on a table, and won't break the bank if you need a few.

Displaying your plates adds character and frees up precious cupboard space.

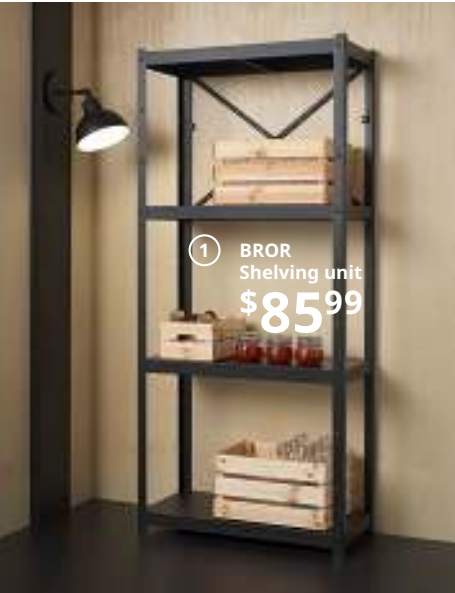

Organize... upwards. Hooks can hold everything from utensils to chef's jackets (for very serious cooks).

What is limited warrantied?
The extent of the limited warranty given for each product is described alongside each product.

Duration of limited warranty
Each limited warranty lasts for the number of years stated against each product starting from the date of purchase.

What will IKEA do to correct the problem?
IKEA will examine the product and decide if it’s covered under this limited warranty. IKEA will then, at its choice, either repair the defective product or replace it with the same or a comparable product. In these cases, IKEA will be responsible for the costs of repairs, spare parts, labor and travel for repair staff that IKEA incurs, provided that the product is accessible for repair without IKEA incurring additional expenditure to gain access. This will not apply in cases where repair work has not been authorized by IKEA. Any defected parts removed in the course of repair works will become the property of IKEA. If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. IKEA will decide at its discretion, what will constitute an appropriate replacement.

Conditions for the limited warranties
The limited warranties are valid from the date of purchase at IKEA. The original purchase receipt is required as proof of purchase.

Exclusions
The limited warranties do not apply to products that have been stored or assembled incorrectly, used inappropriately, abused, misused, altered or cleaned with wrong cleaning methods or wrong cleaning products. The limited warranties do not cover normal wear and tear, cuts or scratches or damage caused by impacts or accidents. The limited warranties do not apply if products have been placed outdoors or in a humid environment or if the products have been used for non-residential purposes (unless otherwise stated). The limited warranties do not cover consequential or incidental damages.

For customers in the US only: Some states do not allow the limitation or exclusion of incidental or consequential damage, so this limitation or exclusion may not apply to you. For details see the limited warranty conditions and description for every product.

Care instructions
To be able to rely on this limited warranty you need to follow the specific care instructions for every product.
► You will find all care instructions in the IKEA stores and on the IKEA website: [IKEA-USA.com](https://www.ikea.com/us/en)

General legal rights
This limited warranty gives you specific legal rights. This limited warranty does not, in any way, affect the rights given to you by law.

How to reach us if you need service:
Contact your local IKEA store.
► You will find the address and phone number in the IKEA catalog or at [IKEA-USA.com](https://www.ikea.com/us/en). Save your sales receipt as proof of purchase. Proof of purchase is required for the limited warranties to be valid.

For claims under this last particular condition, the customer should contact IKEA Customer Service at IKEA-USA.com • Cost for carrying out the initial installation of the IKEA appliance. Renewable energy, brighter future

Worldwide, more than a billion people lack access to safe, reliable and affordable energy sources. They instead have to rely on dirty fuels like kerosene, charcoal and firewood to cook food, light their homes and meet other basic needs.

This number previously included Rajeshwari, a 12-year-old living in a village in the forests surrounding the Southern Indian town of Male Mahadeshwarabetta, and her family. Like many others in India, their village lacked access to reliable electricity.

But thanks to the work of SELCO Foundation, supported by the IKEA Foundation, they now receive power from a renewable energy enterprise set up in their community. And they are among approximately 160,000 adults and 400,000 children in India who will soon also enjoy healthier and more sustainable homes, better healthcare and greater educational opportunities through renewable energy.

The IKEA Foundation remains committed to powering communities in India and around the world with renewable energy.

The solar-powered mill is convenient for the community, and helps Rajeshwari's mother earn an additional income.

This solar-powered pump means drawing water is less labor-intensive for Rajeshwari and her neighbors.

A solar-powered mobile health clinic allows her grandmother to receive care at home.
